

Just What You're Looking for

They are wonderful these new
Hart, Schaffner & Marx
Suits and Overcoats

Browns are exceptionally strong this season, blues, greens and all dark mixtures are good also. But the waist-seam model, with or without the belt together with the many variations of pockets, lapels and trimmings is the popular style.

Men of today want style as well as quality. Hart, Schaffner & Marx clothes contain both 100 per cent and we have a wonderful range of patterns, new ones coming most every day.

We have just received a wonderful line of Stetson Hats in the new shades and blocks. None better, see them before you buy.

The greatest line of beautiful neckwear you have ever seen went on our racks this morning; \$1, \$1.50, \$2
Phone your order at once and we will send several on approval or better come up.

KEYTESVILLE, MISSOURI

Friday, September 19, 1919

Entered at the Post Office at Keytesville Mo as second-class mail matter.

If the citizens of the National Capitol are to become panicky every time a war scare report is flung among them, lets move the Capitol to St. Louis where a dreadnaught, submarine or flying squadron cannot molest their dreams.

England would like such an arrangement much, France very much and Americans not muchly.

As people study and have some understanding of the covenant intended to back up the league of nations as written by president Wilson, Clemenceau and Lloyd George at Paris, they are sure they do not want it. It is rather a big thing for one man to undertake to bind this country. Secret covenants were denounced by our president before he went to Paris and help manufacture a lot of them.

Come and see for yourself.

Unquestionably president Wilson is losing ground in the west. Some of his strongest Democratic supporters are backing away from his schemes. Ham Lewis, ex-senator, is inclined to believe the president is approaching world wide socialism. No one but Col. House knows just what he has in mind after the league of nations matter is disposed of, but it is safe to guess that the next thing, in case the league covenant is ratified by the senate as it stands in Mr. Wilson's own hand writing, will be the alliance between Britain, France and the United States. The NEW EDISON

No Needles to Change
Even records of all other makes sound more human when played on The New Edison

A Boon Everywhere

A phonograph is needed in every home. Most of all in the village, small city and farm homes.

Wherever you may be, whatever your station in life, really and truly the Edison Phonograph, with its laughter and merriment, with its refining, educating and soul-stirring influence should prove a Godsend to you.

On the lonely ranch, at the public meeting place, out with a camping party—and above all in the home—the Edison will do more for you to make life worth while than a score of other articles that you might buy for ten times the cost of an Edison.

Music's Re-Creation

That is the only term which can really describe Mr. Edison's wonderful phonograph. For it really creates music anew. It does more than merely reproduce music like the "talking machine." Everyone can tell "talking machine" music when they hear it, but actual tests before over two million music lovers have proved that when the music of the New Edison is heard side by side with the living artist who made the record, the ear cannot tell which is which.

Yes, that is wonderful. But it took no less a genius than Thomas A. Edison, the world's greatest inventor, to accomplish such a miracle. The New Edison is his favorite invention. He worked for years and spent a fortune to perfect it. Now, since we make this liberal offer, will you be satisfied to have anything less than Music's Re-Creation in your home?

Don't Wait!

Don't deny yourself the pleasure which The New Edison will bring for another day. Come in and hear it. Bring your family. We'll gladly play any records for you which you would like to hear. Select your outfit and let us send it to your home on our liberal offer.
